

Frederick Douglass Building

Frederick Douglass High School & Joseph C. Briscoe Academy

Project Update February 2026

Construction Update | Work Progress

- The structure for the Douglass main entrance addition is complete and the perimeter walls has begun.
- Significant progress has been made in key spaces, such as the auditorium, gym, and pool.
- Elevator construction has begun in several locations.
- The Briscoe addition exterior walls are nearing completion with interior partitions and mechanical, electrical, and plumbing systems (MEP) rough-ins are ongoing.
- The permanent roof on the additions is set to begin.
- Site concrete is underway in several areas.
- Parking lot construction is ongoing with curb, gutter, light pole bases, and base asphalt.
- Interior finishes are progressing on the 2nd and 3rd floor, with the 1st floor commencing.

Construction Look Ahead | Work Scheduled to Occur in the Near Future

- The permanent roof of the additions will be completed soon (weather permitting).
- Rooftop equipment is ready to be set.
- Classroom flooring and countertops are set to commence.
- Permanent interior doors are due soon.
